EDMONTON, ALBERTA FRIDAY, JUNE 16TH, 1905

No 138

GRAND DUKE RESIGNS

COMMAND OF RUSSIA'S NAVY.

Uncle of Czar Grows Weary of Savage Criticism and Gives Up His Post.

St. Petersburg, June 16. — The Grand Duke Alexis, uncle of the Czar, has resigned the exalted position of High Admiral of the Russian navy on account of severe criticism. He is supposed to be responsible for Russia's defeat on the seas and the consequent destruction of the great Muscovite navy by the Japanese.

The sensational announcement was made shortly before midnight that Alexis and Admiral Avelen, head of the Russian admiralty department had resigned. This announcement was followed a few minutes later by an Imperial rescript relieving the Grand Duke of the supreme direction of the navy, which he had held since the days of the Emperor's father Alexander III., when Russia resolved to enter the lists as a first class sea power. Although from time to time since the war began there have been rumors that the Duke would retire on account of the savage criticism levelled at him, especially regarding the construction of ships, the announcement of his resignation came like a bolt out of the blue.

The instant disposition was to regard the retirement of Alexis and Avelen as a concession to public opinion following the crowning tragedy of the Sea of Japan. The Emperor accepted the resignation of Alexis.

FRANCE IS UNEASY

Paris, June 6.—Much uneasiness prevails here concerning the Franco-German situation growing out of the Moroccan question and the continued cabinet crisis resulting from Delcasse's retirement from the foreign office.

SENT UP FOR TRIAL

Montre, June 16.—Mrs. William Diamond was committed for trial on the charge of murdering her daughter-in-law by administering strychnine in a dose of salts.

INTEREST SLACKENS

Winnipeg, June 15.—The revival movement which struck Winnipeg lately seems to have fallen rather flat. The meetings now are not crowded and the anticipated interest did not materialize.

HORSE SHOW NOT A SUCCESS

Winnipeg, June 15.—The first horse show was held here today, but the attendance was poor and not encouraging to the promoters. Cool weather had much to do with the slim attendance. The entries were distinctly good though not numerous.

BALL GAMES

Winnipeg, June 16. — Yesterday's scores—Winnipeg 4, Grand Forks 1; Fargo 6, Crookston 2; St. Cloud-Duluth, rain.

CANUCKS FOR HISLEY

Montreal, June 16.—Canada's hockey team sails for England today.

PRINTER KILLED BY AUTOMOBILE

Toronto, June 16.—The victim of the automobile fatality on College street Wednesday was identified yesterday as Lenon Williams. He was employed as a machinist in the printing department of the T. Eaton Co. Williams was struck by an automobile driven by a chauffeur employed by Wm. Robbin and instantly killed.

EATON MAY COME WEST

Vancouver, July 13.—It is reported that the firm of Timothy Eaton & Co., of Toronto, is making arrangements for the purchase of a site in Vancouver on which will be erected a large department store. The Eaton people are planning to build a large store at Winnipeg, and one of the members of the firm is now in Calgary and Edmonton for the purpose of doing the same in one of those cities. He is expected shortly to arrive in Vancouver. It is probable that some def-

inite announcement will then be made, and until that time none of the parties concerned have any authoritative statement to make.

MR. DAMON'S MIS-STATEMENTS.

It will be remembered that a few weeks ago the Bulletin copied from the Seattle Post-Intelligencer an interview with Mr. C. A. Damon, published in that paper, which interview consisted principally of gross mis-statements and deliberate falsehoods in regard to Alberta. It appears that the secretary of the board of trade promptly got after Mr. Damon, and at the same time sent a copy of the interview to Mr. James, President of the Wetaskiwin board of trade, as Mr. Damon's most glaring mis-statement was in reference to Wetaskiwin. Mr. James also took after Mr. Damon. The Post-Intelligencer, which was evidently acting in good faith, but had been imposed upon in the matter, published in its issue of June 12, the letters of both Mr. Fisher and Mr. James, which leave but scant shreds of Mr. Damon's statements, so far as they applied to the central part of Alberta, and will not tend to increase that gentleman's reputation for veracity.

Anybody who draws attention to published mis-statements in regard to the country, so that they can be promptly refuted in the medium in which they appear is doing the district a service; and the incident usually results in advertising for the district, the balance of which is in our favor.

PREPARING FOR THE FAIR.

Arrangements for the big fair which opens on June 29, proceed rapidly. Entries are pouring in and the sales of booth spaces exceed all records. Five horses have already arrived to go in training for the races and three more are expected in tonight.

Among the attractions billed are Aekerman the cyclist who appeared here two years since, the Nodus, acrobats and contortionists, Fred White, juggler and the Randolphs with their performance "Fun in a Chinese Laundry."

LARGE MEETING LAST EVENING.

That all the available seating space in the Presbyterian church was occupied last evening at the second meeting of the mission being conducted in the city by the McMaster band is evidence of the expectancy on the part of the people and the rapid attention with which the large audience listened to the forceful speaking and heart stirring music is evidence that that expectancy is not going to be disappointed. If one were asked to explain the rare power of this body of men "conviction" would be the best answer that could be given in one word. These men have confidence in their message.

At the service for girls yesterday afternoon there was a large attendance and a number professed conversion. At 4.15 this afternoon Mr. Mitchell, a man who loves boys and who is loved by thousands of boys on this continent, will conduct a service for boys between the ages of 12 and 18.

DUAL LANGUAGES

IN THE NEW LEGISLATURES.

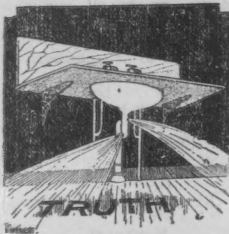

Mr. Monk Will Move an Amendment Establishing the Dual System.

Ottawa, June 15.—Monk gave notice today that he would move in committee as an addition to clause 2 of the Autonomy Bill the following paragraph "Either the English or the French language may be used by any persons in the debates of the Legislative Assembly of the Province and in the proceedings of the courts, and both these languages shall be used in the records and journals of such assembly and all laws made by the legislature shall be printed in both languages, provided, however, that the said Legislative Assembly may by law, or otherwise regulate its proceedings and the manner of recording and publishing the same and the regulations so made shall be embodied in a proclamation which shall be forthwith made and published by the Lieutenant Governor in conformity of the law, and thereafter shall have full force and effect."

WEATHER.

The weather has continued cool and showery throughout Alberta, and Assiniboia and cloudy and cool in Manitoba. Indications are that the weather will be fair and warmer in Alberta, cool and showery in Eastern Assiniboia and Manitoba.

Temperatures recorded during the past twenty-four hours:—
Edmonton, fair 52 40
Calgary, fair 74 42
Bathurst, cloudy 50 42
Medicine Hat, cloudy 58 46
Red Deer, cloudy 54 34
Lethbridge, fair 43 34
Swift Current, cloudy 50 40
Regina, cloudy 52 42
Winnipeg, rain 56 44
Port Arthur, fair 56 52

THE TRUTH WILL LEAK OUT, but water comes in jets. If it were the other way we'd all have to be honest and we wouldn't need

THE PLUMBER.

As things are, however, all we can do is to employ an honest plumber who knows his business—one who will put in good material and put it up to stay. That's what we try to do here. We supply everything necessary for fitting up the bath-room and we do the fitting ourselves.

J. A. LOCKERBIE & CO

REFRIGERATORS

KEEP THE MILK COOL AND THE BUTTER SWEET.

Doors are air tight with cleanable flues and thorough cold dry circulation. All packed with mineral wool. Prices ranging from \$10.50 to \$37.00.

THE BYE-ELECTIONS

The results of the bye-elections in London and North Oxford indicate very clearly that the people of Ontario were by no means "swept off their feet" by the wild appeals to race and creed prejudice to which they were subjected by the Opposition press of Toronto. Whatever sins may be charged against that journalistic oligarchy it certainly cannot be said that they lost the battle through indolence. Their course has been one of great and well-sustained energy—energy bordering on desperation, or worse. The front pages of the publications under their control have blazoned distracting motives and displayed libellous cartoons. Their editorial columns have misrepresented the Government, and their news columns the electorate. Alike the Pope and Dr. Bryce, Monsignor Sbarretti and Dr. Carmichael, Sir Wilfrid Laurier and Prof. Baird have been held up before the electors as designing villains or unprincipled partisans. Neither integrity of character, spotless record nor ripe scholarship has been respected. Even the departed Hon. Geo. Brown, and Hon. David Mills were summoned from the shadows to admonish the stalwart Scots of Zorra and warn the electorate of London to consider not material gain in the hour of national crisis. All that cunning could devise and irresponsibility daring execute, was brought into play in probably the most deliberate and malicious attempt in Canadian history to mislead an intelligent electorate.

The immediate result of the election should be the termination of the obstruction tactics of the Opposition, in which event the autonomy bills might pass the House in time for the inauguration of the provincial status on the date fixed. This course should now be satisfactory to all concerned. Neither the Government nor the Territorial electorate have endeavored to deny the matter. Mr. Haultain has expressed himself as opposed to any postponement of the date and the electors of London and North Oxford have very emphatically declined to give the Opposition license or pretext to protract the obstruction tactics of the past two months. The deeper lesson of the campaign and its outcome is that the ultra-Protestant people of Ontario do not approve of the introduction of racial differences and religious dissensions into politics.

WESTERN NEWS NOTES

—Fincher Creek Echo: Ralph O. South, a farmer living a few miles north of town took his life by placing the muzzle of a 22 calibre rifle in his mouth and pressing the trigger. The rash deed was committed at the home of Mr. E. C. Cook on Thursday morning last. Letters belonging to the deceased pointed strongly to the fact that he had been in a despondent mood for some time past. Confusion Gould visited the scene of the tragedy and decided to hold an inquest. A jury was empanelled and after a thorough investigation returned a verdict to the effect that the deceased came to his death by his own hand during a fit of temporary insanity. The deceased was a man about forty-five years of age and unmarried. A sister resides in Montreal.

—Cardston Star: The Macleod Gazette informs us that "Calgary is to sink a well for natural gas." Well, that's pretty good, but will it help the "Capital" cause? Of course they may then let their light shine, etc. We had been wondering where the "hot air" was coming from which has been fuming in the Calgary papers of late. We know now. Bennett must have been sniffing the soil for several days before he left for the east with his gas-o-line guns. Bennett is safe and secure so long as the law keeps

Judge Sifton on the bench. There is no telling what Frank will do to him in London, the Rojstevsky-Togo dialogue won't be a circumstance.

—Cardston Star: The howl for non-partisan government in the Provincial Assembly of Alberta is still going on and Liberals and Conservatives alike are joining in the refrain. Non-partisan government is "N.G." Let the Liberals and the Conservatives come out under their own banners and fight the issues to a finish. The condition of things generally, the status of the men taking the leading parts and the minutes of the Moose Jaw Convention all demand a party controversy in the initial parliament for the new province.

—Red Deer News: A large and representative meeting of the Young Men's Conservative Association was held in the post office block on Wednesday evening. Steps were taken towards thoroughly organizing the constituency and arranging for a general convention. Considerable discussion took place regarding the best course to adopt under the present circumstances, some favoring the drawing of party lines. The greater number, however, seemed to feel that a non-partisan course would be in the interests of the constituency at the present time. A motion was finally passed whereby the meeting expressed itself as unable to bind the Conservatives of the constituency prior to a convention, but leaving each member free to follow what he believed to be the best and wisest course.

—The name of the new C. N. R. town opposite Battleford has been announced as North Battleford.

—The 150-mile section of the C. N. R. main line from Humboldt to Battleford, which has just been completed, will be placed in regular operation by the construction department—McKenzie, Mann & Co.—instead of the Canadian Northern Railway, who have commenced to operate a tri-weekly mixed train service from Humboldt connecting with the service of the C. N. R. proper. The names of the stations on the new section have been selected as follows, each being between seven and eight miles distant from the next: Humboldt, Carmel, Bruno, Dana, Howell, Vonda, Aberdeen, Clarkboro, Warman, Dalmeny, Langham, Elbow, Porden, Radisson, Fielding, Maymont, Ruddell, Denholm, Brada and North Battleford.

—Battleford Herald: The C. N. R. time table to North Battleford is published in another column. The originator of the same must have seriously affected his brain in attempting to make the train service awkward for this side of the river. The train arrives at 8 p.m. after the ferry is laid up for the night and leaves at 6 a.m. before the ferry has begun its day's work, thereby compelling all passengers to stop overnight in the new town, whether going or coming. And when Humboldt is reached passengers who leave here on Mondays and Wednesdays lay over from 4.45 p.m. of one day to 5.20 p.m. of the following day and the passengers by the Friday train are in a worse plight, as they must lay over from 4.45 p.m. on Friday to 5.20 p.m. on Sunday. There is also no close connection made with the C. P. R. for Regina, and the south at Warman, people having to lay over there for nearly a day.

A Pioneer Gone

Athabasca Landing, June 15.—Mr. G. Gullion, one of the pioneers of this place, passed away yesterday at the ripe old age of seventy-three years. Mr. Gullion came to this country in the employ of the Hudson Bay Company as boat builder, in which occupation he remained at the Rocky Mountain house until he left the Company's service. He settled for some years at Long Lake and Belmont, near Edmonton, and on the establishment of the Landing, moved here, where he has resided ever since. The funeral takes place tomorrow to the cemetery here. He leaves to mourn his loss a wife and nine children, six sons and three daughters.

The steamer Midnight Sun returned from Wabasca this morning and leaves for Lesser Slave Lake in the morning.

WANTED.
GOOD AGENTS FOR THE
Oliver Typewriter
IN ALL
UNOCCUPIED TERRITORY

Over 100,000 of these machines have been sold in the U.S. within the last few years at the same price which is being charged for any other standard typewriter. This proves conclusively that the OLIVER is the very best machine made regardless of price.

As there is now in Montreal a factory devoted exclusively to the manufacture of this machine, it can be bought in Canada for the same price at which it is sold in the U.S. without adding from \$25 to \$30 to cover duty and charges, as do all the other standard writers.

This should be a very attractive proposition to any purchaser of writing machines.

Opening up the North

Capt. C. E. Denny, of the R.N.W.M.P. who is accompanying the North West Mounted Police force, which under Superintendent Constantine, has been sent to cut a trail from St. John on the Peace River to the Yukon, writing from Peace River Crossing, April 19, says:—

Since sending you my last letter from Lesser Slave Lake, we have made another hundred mile journey to this point. We remained a few days at the lake to rest the horses, which were considerably galled down from the trip over Moose Portage. We changed from sleighs to wagons at Lesser Slave lake, and took on more oats and baled hay, but we found that plenty of hay could be procured on the road, so we did not take much of this with us, only enough for the first day. Bredin & Cornwall have a good store here and supply their trading posts at Peace River Landing and Fort St. John from it. This firm does a good trade in furs, and their prices for goods are not at all unreasonable, considering the distance they have to freight. They have a monthly mail contract to and from Slave Lake to the Athabasca Landing, and also to Peace River Landing, but only a letter mail is carried during the winter.

We took four days to cross over to Peace River, with eight four-horse wagons, pretty well loaded. The road is a terror, mud up to the ankles, for miles, but the frost was not quite out of the ground, so the wagons did not altogether go out of sight.

I understand that in wet seasons, this road is sometimes impassable for two months at a time, and I don't think I doubt it. The weather all along has been like spring, and we never pitched our tents on the trip.

We passed many small ranches on the road, mostly those of half-breeds and Indians, and always procured plenty of baled hay, of which there is always a good supply to be procured. A little farming is done, and in several instances we saw small bands of cattle at these places.

Back from the road considerable game is still to be found, moose and deer being quite plentiful. The Indians procured considerable fur this winter, lynx being the most plentiful.

The road from Lesser Slave Lake to Peace River Crossing could, with little expense be made a good one, as the creeks are all bridged, and if some of the swamps were drained and corduroyed, a very good road could be made. As I have stated, we were four days crossing, and on the morning of the fifth sighted Peace River from the top of the hill. It was still frozen over, and is about 500 yards wide at the Crossing. The River valley is a beautiful one, a number of terraces from the river up to the bench being covered with pine and poplar.

There are only a few buildings at that point, the Hudson's Bay Co's store, Bredin & Cornwall's and one or two others, with the police detachment buildings, across Hart River, about half a mile from the stores. The mission and, half-breed settlement and the English mission, are situated on the north side some 12 miles up. Good crops of wheat and barley, also vegetables, are grown there, and I am told that the season is two or three weeks earlier on Peace River than at Lesser Slave Lake. It is certainly very early this year, as when we arrived no snow was to be seen, but green grass was beginning to show, on the side hills, and even flowers were showing up.

We were informed that we could cross over on the ice and with every precaution tried it, but the head wagon (the cook's wagon), broke through on the further shore, and two of the men narrowly escaped drowning, and although the horses were got out, one of them died on the way out, one of them died on the ice, the first horse lost on the trip. Most of the baggage, with the wagon, was recovered, and we returned to the south shore and pitched our camp with the police detachment. We will remain here until the small steamer belonging to the mission comes down. She will take us over in scows, but that will not be until the middle of May. Then we can resume our journey to Fort St. John, 200 miles further up, as we must wait for supplies also.

The Hudson's Bay Co. have a large boat built at Vermilion, but the boilers are here, and will have to be rattled down, so they will scarcely be on the river before June. The boat will run from Vermilion to Ft. St. John's, and is of good size, being 110 ft. long. The stores here are short of some supplies, these summer goods not having come up. The trade last

THREE YEARS
OLD

WHEN the tobacco I have personally selected in Cuba is delivered at my factory, I begin a special treatment to still further cure it—develop its delightful aroma.

This special treatment requires two to three years, depending on the "crop."

I work it thoroughly—through various processes of fermenting and drying in specially made apparatuses that enable me to keep the tobacco in each process at certain fixed temperatures and moist or dry at such a degree of humidity—necessary to bring out the virtues I insist on in each cigar.

By having the filler so aged and treated, I make my Pharaoh a smooth, palatable smoke—one with a delicate incense-like flavor and very even combustion.

The binder and wrapper are the Connecticut Broadleaf and the imported Sumatra respectively—both tobaccos that delight the epicure.

Campbell's Clothing

OUR
CLOTHING

is designed to wear and keep its shape and appearance for more than one season, and if you do not find extreme styles in our stock, it is because extreme styles are short lived.

It is a waste to put enduring material and high class work into a garment that will be out of date before it is half worn out.

We aim to meet the requirements of the THRIFTY and SENSIBLE BUYER, who wishes to be well dressed, who wants clothes distinguished by neatness and good taste, instead of merely conspicuous on account of freakish designs.

A large range of Mens Tweed and Summer Suits. Prices run from \$5.00 to \$20.00.

We think we can please you in assortment of styles as well as variety in prices.

This showery weather is just the time you wish for a waterproof coat. Why not buy one of our Cravenette or Showerproof Coats? They are dressy up-to-date styles, comfortable and suitable for any season.

FOUND MANY SKULLS

WHILE DIGGING A CELLAR

A Manitoba Farmer Makes a Gruesome Find which may be the Results of Wholesale Crime.

Crystal City, June 16.—A horrible find of human skulls was made 10 miles from here. A farmer and his laborers were digging a cellar and discovered 48 skulls buried. There were only the remains of 2 whole skeletons. The gruesome find was sent here this afternoon and the doctors and old timers are at a loss to place the origin of the bones. Some say they are the result of a prehistoric battle but the doctors say the skulls are undoubtedly those of white men and have not been interred long either.

EARLY SPRING AT PEACE RIVER.

Corporal McLeod, of the N. W. M. P., returned this week from Peace River Crossing, where he was connected with the party which expects to cut the trail through to the Yukon. He was called back as a witness in the King murder trial or would now have been at Fort St. John with the rest of his party. The company, consisting of thirty-two men and sixty horses, left Edmonton the 17th of March and reached the Peace river in April. Corp. McLeod reports that upon April 18 they were able to turn their horses out on a good supply of green feed, which when it is remembered that they were nearly four hundred miles north of the city, does not look very bad for the climatic conditions of the country. There was scarcely any rain in that country until June 1 and crops at that date were in splendid condition. The company to which Corp. McLeod belongs enlisted for a term of three years, it being expected that it will require that length of time or even longer to open up a passable trail to the Yukon from Fort St. John. The corporal will return north at the close of the trial and rejoin the company.

Western Climate and Forestry

Following is an extract from an article on "The Climate of Manitoba and the Northwest Territories," by R. F. Stupart, Director of the Dominion Meteorological Survey:

"In Manitoba the rainfall is greater than in any portion of the Northwest Territories. The normal annual precipitation for the Province is approximately 22 inches, and the May and August rainfall 11.5 inches; drought is therefore not much to be feared here, but westward the danger increases. From Regina westward to Medicine Hat and northward to Saskatoon there are very few rainfall records of over a few years, but there is fair evidence that the average annual precipitation over this area nowhere exceeds 15 inches, and at many points is less than that amount. By reference to the table it will be seen that the records of eighteen years indicate an average rainfall of 11 inches in Saskatchewan, and 12 inches in Alberta, which, with a snowfall of about 55 inches, gives a total precipitation of 16 or 17 inches over the larger part of Saskatchewan, and 17 or 18 inches in Alberta. But it is to be remembered that the seasonal precipitation in the far west is very variable. At Calgary in 1892, the total precipitation of the year was but 7.91 inches, while last year it was 34 inches. For five years the rainfall has been ample in this region, but for many years prior to 1897, it was scant and in several of the years irrigation appeared necessary for successful crops. We may fairly assume that there will be a return to the dry conditions, and that the Government is setting in a most judicious manner in providing for irrigation in parts of Alberta.

The writer is of the opinion that the Chinook has played an important role in producing a treeless prairie land in Southern Alberta and Assiniboia, and that the tendency for wooded lands in Northern Alberta and northward, is largely due to the diminishing frequency of the Chinook with increasing latitude. The effect of the Chinook in Southern Alberta, and Assiniboia, is to keep the prairies almost bare of snow during the winter, and to leave it quite bare during the early spring, while further north, as the Chinook is less frequent, the snow lies deep in winter, melts and waters the ground in early spring,

Sunlight Soap

represents care, skill and scientific accuracy in its manufacture. That is why it does your washing without shrinking woollens, fraying linens or injuring your hands. Equally good with hard or soft water. No scrubbing, no boiling, more cleansing, less toiling.

My Motto is Perfection in every detail.

G. W. Martin

Maker of Men Clothes, Ladies' Tailor Made Suits and Riding Habits.

providing moisture for trees at a time when moisture is most beneficial. Observation appears to warrant the statement that rainfall is much more variable near the mountains than it is farther east, also in southern portions. In the Territories north of Edmonton, values of rain and snow have been deduced from between six and ten years' observations, and from these it appears probable that the normal precipitation throughout Alberta and northward into the Mackenzie river basin is not very different except that in the higher altitudes the proportion of snow is greater.

EARN A Comfortable Living WITH A Chatham Incubator

Poultry raising with a Chatham Incubator is a very profitable and easily managed occupation. Unless you want to go into it extensively it need take but very little of your time. Government reports show that the demand for chickens in Canada is greatly in excess of the supply and Great Britain is always clamoring for more. That means a steady market and good prices for chickens. You cannot raise chickens successfully with a setting hen. She is wasting time setting when she should be laying. While she is hatching and brooding a few chickens she could be laying five or six dozen eggs. The percentage of chickens she hatches is much less than that produced by the Chatham Incubator.

It will pay you to own a Chatham Incubator. Chatham Incubators contain every improvement of modern incubator construction that has been produced. They are made of thoroughly seasoned wood, with two walls, case within case. Between these walls mineral wool is packed forming the very best insulation. Each piece of the case is mortised and grooved and screwed, making the whole as solid as a rock. Chatham Incubators are equipped with electrically actuated regulators which are an infallible means of regulating the temperature.

No cash to pay until October, 1905.

We will start you raising poultry for profit with a Chatham Incubator without one cent of money from you until next Fall. That means that you can take off seven or eight hatches and make considerable money out of the incubator before the first payment becomes due.

We couldn't make this offer if we were not certain that if you accept it you will get complete satisfaction, if we were not positive that the Chatham Incubator will pay you a handsome yearly income.

This is a straightforward offer. We make it to show our supreme confidence in the Chatham Incubator. We want you to accept this offer as we are sure of the satisfaction our Incubator will give. Every machine we have put out so far has made other sales in the same neighborhood.

Our offer is to send you a Chatham Incubator at once, freight prepaid by us without one cent of cash from you. You make your first payment in October, 1905. The balance to be paid in October, 1906, or if a Cash Buyer you get it cheaper. Could any offer be fairer or more generous?

Write us today for full particulars of our offer and mention this paper. Don't put it aside for another time as this special proposition may be withdrawn at any time.

THE NEWS OF THE DAY

IN CONDENSED DESPATCHES

Brief Items from many sources tell the story of the day's events.

NORWEGIANS INSIST ON RECOGNITION.

Stockholm, June 14.—King Oscar in a long and vigorously worded letter to the president of the Norwegian Storting, Mr. Berner, declares the ascension oath of Norway's king makes it the king's duty not to pass over in silence the pronouncement of the Norwegian council of state on the occasion of his majesty's veto of the consular bill. The king maintains that he did not overstep his prerogatives under the constitution, and says that consideration for the union imposes on the king the duty of exercising his constitutional rights.

"The king of Norway," his majesty adds, "must always bear in mind paragraph one of the Norwegian constitution, which reads: 'The kingdom of Norway is free, autonomous, independent and indivisible.'"

"I think myself justified for demanding the respect for the Norwegian king in order to enable him to promote the welfare of the country according to his convictions are no greater than those which must be reserved to the monarchy united with Sweden under one king."

After lengthily repudiating the declaration of the council of state that his veto was unconstitutional because no member of the council regarded himself as being in a position to countersign it, King Oscar regarded himself as being in a position to countersign it. He proceeded: "One of the fundamental principles of the constitution and a fact that is most important is that Norway shall be a constitutional monarchy. It is clearly incompatible therewith that the king should sink to the position of a mere tool in the hands of the state which would be the case if the refusal of the council of state to countersign any of the royal decisions could prevent them from coming into force, the king of Norway would be excluded from participating in the state administration. Such a situation would be as degrading to the monarch as harmful to Norway."

"My endeavor has always been to give Norway that place within the union that she can rightly lay claim. My royal duty to the union requires me to endeavor to uphold its legal basis, even when by so doing I come out in opposition to the Norwegian national feeling."

"The act on which I took oath and which has regard for the welfare of the united peoples decided my action in the consular question, but I here was met not only by the refusal of the Norwegian council of state to countersign the decision, but by the resignation of its members. When I declined to accept their resignations, the council declared that any Norwegian who participated in carrying out my decision would at the next moment be without a fatherland."

"The council, after attempting to violate the constitution, and to render void a decision of the king of Norway legally given, resigned office and the king or Norway was deprived of the Storting approved of this breach of the constitution, and by a revolutionary proceeding declared the king of Norway had ceased to reign, and that the union of the two kingdoms was dissolved."

"It remains for Sweden and I, as king of the union to decide whether the attack by Norway on the existing union shall lead to the legal dissolution of that kingdom. Let the present generation and posterity judge between me and the Norwegian people."

Washington, D.C., June 14.—Norwegian residents of the United States have appealed to President Roosevelt formally to recognize the new government of their country. It is the understanding here that Norway will ask recognition as a nation from all the civilized countries of the world. So far as can be ascertained no protest has yet been made to the American government by Sweden against the recognition of Norway, but it is believed not unlikely that such a protest will be made.

London, June 14.—It is officially announced that King Edward has appointed King Oscar an honorary admiral of the British fleet.

WILL MEET AT WASHINGTON. Washington, June 15.—This city has been chosen as the meeting place of the peace plenipotentiaries of Japan and Russia.

Opening up the North

Continued from page three

winter has been fair, but I understand a very good number of martens, fox and bear skins have been taken in at Dunvegan and St. John which is a far better fur and game country than at the Crossing. The Indians on the reserve have had plenty of moose meat during the winter, having killed over eighty of these animals. Moose, bear and caribou are fairly plenty a little back from the river.

There is no gold washed in this section, but about forty miles up good washings of fine gold have been found. On the South Pine River, some twenty miles below St. John, fairly good washings have been struck. Goods and supplies of all kinds are expensive, but will no doubt be lower should the roads be improved and more freighters come in.

As I have stated we shall remain here until the middle of May, and then cross over and go on to Fort St. John with three or four wagons and the best pack horses. We shall travel light, the supplies going up to St. John by steamer. From St. John we keep on west, making that place our headquarters and open a trail as far as we can until winter drives us out. Plenty of hay can be got at St. John, and the road to that point is a fairly good one, and as all the rivers are very low, and there seems no more snow to come out, we shall have no trouble with them.

Several G. T. Pacific survey parties are working west of us, but branch south from Ft. St. John on the south side of Peace River, working into the mountains through some pass south of Peace River.

We have had no sickness whatever and the men are all in good spirits, and getting hardened, and do the work well. Everything up to this point has been well carried out, and much credit is due to the commanding officer and the inspector under him.

Our rations have been plentiful and of good quality. Beef is furnished here. The horses, considering the work they have had to do, have come through very well, but they much need the rest they will get here.

The soil here is sandy loam and with moisture good crops of grain and vegetables can be raised, and I understand that this is the case through the whole of Peace River valley.

As I am writing this the ice is going out on the river, although it is very slow. There is a monthly mail to this point from Lesser Slave Lake and Athabasca Landing, but no regular mail from here up, it being taken up by any boat that happens to be going that way.

Up to this point the journey has been most successful. As I write, the ice is going out of Peace River with a rush.

Dr. Roy.

Dr. Roy, who has been in New York for the last two months wishes to let his clients know that he will be in his office for consultation as before, from 2 to 5 every day. Specialties: Surgery and Diseases of the Eye, Ear, Nose and Throat. Dr. Roy's private residence for some time will be at Mrs. Harrison Young's, on Fifth street. Telephone: Office, 88; Residence, 188.

STOVE WOOD FOR SALE

HOT AIR FURNACES

If you have any idea of heating your house with hot air, it will pay you to look into the "PEASE."

This Furnace is considered one of the very best made, and when installed by a first class mechanic is sure to give satisfaction. Ross Bros. are the sole agents for this district, and they employ none but the best workmen, as some of the following testimonials from some of our best known citizens should convince you. We have a large number of these testimonials, every one of which is from gentlemen who have used the PEASE FURNACE.

We put a large number in Edmonton during last year, and in every instance the purchasers were well pleased, and do not hesitate to speak in the highest terms of them.

TESTIMONIALS.

From MALCOLM GROAT, Edmonton.
J. J. MELLON, Strathcona.
JAS. H. WOOD, Athabasca Landing.
W. H. COOPER, Edmonton.
KING POWELL, Edmonton.
J. B. MERCER, "
C. W. CROSS, "
E. J. MANSON, "

Sole Agents for Edmonton ROSS, BROS. Limited.

Ross Bros.,
Gentlemen:—
The hot air heating system that you installed in my house last summer, and which has been thoroughly tested during the past winter, has given me splendid satisfaction. All parts of my house, which are in an exposed position on the crest of the river bank, were comfortably heated at all times. The coal consumed during the winter was not large, and it burns the Edmonton coal perfectly. I am very well satisfied with the heating system, and the workmanship and the material used on the job is of the best, and would recommend your furnace to any one.
Yours truly,
MALCOLM GROAT.

Ross Bros.,
Gentlemen:—
Replying to yours re the furnace I purchased from you and which your workmen put in my store (The Hudson Bay Store) I am well satisfied with it. The store is 35 x 40, with a 15 foot ceiling, plate glass front, and when the thermometer stood at 22 below zero the store was easily heated to 90 degrees. The workmanship is first class in every particular. The fuel consumed is small considering the results we get. There is no smoke or leakage of gas, and the furnace is very easily managed. I can heartily recommend your furnace to any intending purchaser, as I am sure there can be no fault found with them.
Yours truly,
JAMES H. WOOD.

Ross Bros.,
Gentlemen:—
Regarding the warm air furnace which you installed in my house. I may say that I am perfectly satisfied with it. I had no difficulty whatever in heating the whole house in all kinds of weather. No heat is wasted in the cellar, and I had no trouble with the pipes not working in windy weather. I find it easy to manage, and economical on fuel, and were I to build again, I would have no other kind of furnace, and I would recommend it to any person wanting one.
Yours truly,
W. H. COOPER.

Ross Bros., Limited.
Gentlemen:—
The furnace you placed in my house last year has given us the very best of satisfaction, and every room in the house is evenly heated, and I find that it burns the Edmonton coal very economically, and is easy to manage and free from dust or gas. I would cheerfully recommend it to anyone.
Yours truly,
KING POWELL.

Ross Bros., Limited.
Gentlemen:—
The Furnace you placed in the house I live in (owned by J. N. Pomereau) has given us perfect satisfaction. In fact we can make it too warm to live in if we were to let the furnace burn freely, and have never been troubled with either smoke, gas or dust. I find it very easy to manage, and I am certain we could not keep the house as comfortable with stoves on anything like the same amount of fuel, and would recommend it to any person wanting a good Furnace.
Yours truly,
J. B. MERCER.

Ross Bros.,
Gentlemen:—
After using your Furnace all winter it gives me great pleasure to recommend it to any one. I used another make of Furnace for four years in the same house, previous to getting this furnace from you, and find your Furnace a great improvement over the old one. I find it free from dust, gas or smoke, and easy to manage, and that the grate burns the Edmonton coal perfectly. My house is more evenly heated with only a little over half the fuel, and I might say that the material and workmanship in connection with the installation of the Furnace is of the best.
Yours truly,
R. J. MANSON.

Messrs. Ross Bros.,
Gentlemen:—
The Furnace you installed in my house last summer has given me perfect satisfaction in every respect, and free from gas or dust, and find that I get more heat from less fuel out of your Furnace than I could from the old Furnace you took out. Therefore would cheerfully recommend your Furnace to any person wanting one.
Yours truly,
C. W. CROSS.

Ross Bros.,
Gentlemen:—
The hot air heating system that you installed in my hotel, has proved to be all and more than you represented it to be, and would not change it for the old system if I had to pay double what it cost me, as I find your Furnace only uses about half the amount of coal that the old Furnace used. In fact one Furnace now heats the whole hotel, except in extreme cold weather, while it took both the old Furnaces going full blast all the time to heat the hotel other winters.
I find your furnace not only a fuel saver, but easy to manage, free from dust, smoke or gas, and would be pleased to recommend it to any person wanting one.
Yours truly,
J. J. MELLON, Strathcona.

Ross Bros. Ltd.

Drowned at Regina

Regina Standard: Edward Candy, a young man in the employ of John England, baker, was drowned while in bathing at the reservoir on Sunday afternoon.

The young man, in company with Alex. Brown, a fellow employee, was taking a bath in the water opposite Copey's "greenhouses," and while swimming about, had taken hold of an old punt. Both men were playing around the punt in shallow water, and Brown took a dive off the top of it.

With a slight jerk the boat was sent over, and Candy lost his grip. As both were good swimmers, Brown thought nothing of the tip and started for shore. As he was nearing the bank, companions there shouted that Candy was drowning.

Brown started back to the scene of the accident with all speed, and reached there just as Candy was going down for the last time. The drowning man caught hold of his companion's wrist, but almost immediately let go again and all efforts to bring him to the surface were unavailing.

To the Standard, Brown stated that he was entirely at sea as to the cause of his companion's drowning. He was a first class swimmer, and when sinking was apparently able to use his arms, but his legs were paralyzed. This would appear to be caused by cramps, and Candy's being hit by the punt is quite improbable.

The unfortunate young man came from Salisbury, England, eight weeks ago, where he leaves a wife and two children to mourn the loss of a husband and father. He was only twenty-six years of age.

Though only in the country a short time, Edward Candy made many friends, and was beloved and liked by all with whom he came in contact. His fellow employees cannot speak too highly of him, and his death will mean the darkening of a large circle of acquaintances in Regina, as well as the family circle in old England.

As soon as the police were notified an attempt was made to recover the body. Sergeant Wilkinson, of the city station, was the first on the spot, and brought into use some grappling irons, as well as diving after the body.

The body was found shortly after ten o'clock next morning by Chief White, of the Fire Department. The muscles of the body were stiffened, indicating that the young man had died in agony, as if convulsed by cramps.

A Fine Body of Immigrants

Battleford Herald: On Thursday last a large party of English immigrants, numbering about two hundred, arrived at North Battleford under the guidance of Messrs R. B. Thompson and W. Hutchinson, of Lloydminster, who spent the past winter in England organizing the party. The immigrants appear to be of good physique and are a stalwart looking crowd. We understand that all have more or less ready money at their disposal towards making a fair start on their homesteads. At the time the party was formed the C. N. R. was only looking as far as Humboldt, which necessitated booking by the C. P. R. to Saskatoon. By the time the party reached Canada the C. N. R. were ready to bring them through to Battleford, and Mr. Thompson succeeded in making an arrangement whereby the C. N. R. accepted the C. P. R. tickets from Winnipeg to Saskatoon as part payment for passage on the C. N. R. from Winnipeg to Battleford. On arrival at the new town, the cars were run across the bridge at Prince's farm and unloaded on the south side of the Saskatchewan, thereby doing away with crossing the ferry. Tents were pitched and arrangements began to be made for the move to Lloydminster. Some have already gone, whilst others have decided to locate in this district. Thus far everything had gone on without a hitch and shows that the organizers had tried to anticipate everything that had marred the progress of the Barr party. But unfortunately they issued a pamphlet stating that wagons, horses, etc., could not be readily obtained at the point of disembarkation and that arrangements had been made with certain specified firms for the supply of wagons, harness, tents and camp stores which would be delivered at the end of the track if ordered in advance, each order to be accompanied by a deposit of £10. This statement was incorrect, as the wagons, horses, oxen and harness could have been obtained here. But that was not the cause of the trouble, but the manner in which the party was done in the matter of harness and wagons.

The circular said the wagons, with covers, would be delivered for the Winnipeg price, plus the freight, or £18. The purchaser thought this meant that the wagons would cost about \$90 here, but the agent claims \$90 plus the freight, or \$97 per wagon. As wagons suitable for the settlers of this country can be purchased in Battleford for \$76, it caused a kick. Another clause said that, "strong hand sewn bracing harness and steel mounted hames" would be supplied for £8 but the contractors have delivered plough harness that can be purchased in town for \$25. This extortion has naturally caused a lot of dissatisfaction and marred what would have been a very successful colonization scheme and the promoters have laid themselves open to charges of misrepresentation and fraud.

ANOTHER WONDERFUL CASE.

Here is Something that will be Welcome News to Many a Discouraged One.

WILLIAM H. REED.
"Of late my food did not digest properly. It turned sour in my stomach, causing me great distress; often, too, I had disagreeable attacks of belching gas and heartburn. I was bothered with severe pains across the small of my back and the least bending or turning would cause me to almost cry out. I was induced to try Dr. Leonard's Anti-Pill and from the very first found relief."

"For the last three months I have had no recurrence of my former complaints, so I am bound to say Anti-Pill has indeed cured me."

This is the voluntary statement of Wm. H. Reed, of 165 Queen St., Kingston, Ont. All Druggists sell Anti-Pill. The Wilcox-Pyle Co., Limited, Niagara Falls, Ont. The remedy that cured such an extreme case is surely worth trying.

CITY GOVERNMENT: Mayor, K. W. MacKenzie; Aldermen, C. May, E. A. McLeod, W. H. Clark, D. R. Fraser, J. R. Boyle, T. Bellamy, J. H. Picard, W. A. Griesbach.

Conveniences:—Waterworks, sewer system, telephone system, electric lighting system, all owned and operated by the city.

Board of Trade:—President, A. B. Campbell, Vice-President, A. T. Cushing, Secretary, F. T. Fisher.

Educational Institutions:—Public and separate schools, high school, Alberta College.

CHURCHES:—Roman Catholic, Anglican, Presbyterian, Methodist Baptist, German Baptist, Lutheran, Salvation Army.

GRAIN SERVICE:—Leaves for Strathcona 7.45 and 15.30. Arrives from Strathcona 9.15 and 10.50.

LOCAL

—The city council meets tonight.

—The band plays at the ball grounds tonight.

—The hockey club give an informal promenade and dance in the rink this evening, beginning at 9 o'clock.

—The McMaster band will hold a monster mass meeting in the rink on Sunday evening.

—Last night's train brought in a large number of teachers from points along the line to attend the institute today and tomorrow.

—The law firm of MacDonald & Griesbach has been dissolved. Mr. Griesbach opening an office in the National Trust building at the corner of Jasper avenue and First street.

—The orchestra give a concert in the rink on Monday evening. They will be assisted by Plowright's band, Misses Ethel and Edith Webster and Messrs. Manly, Stutchbury and Hearn.

—An auction sale was held yesterday at the Alberta stables by Auctioneer Smith. Quite a number of horses &c., changed hands, and also a quantity of household furniture. Prices ruled fair all through.

—The annual picnic given by the Presbyterians of the Sturgeon district was held on Tuesday last. Despite threatening weather there was a very good turn-out. The Sturgeon football team won from the Poplar Lake team, score 1 to 0. The proceeds of the day amounted to \$98.

—The evangelists who have been holding old time gospel meetings, during the past three weeks in the German Baptist church have secured a license and will continue the services beginning tonight. Evangelist, W. S. Craig of Kansas is expected to be present at the opening. The tabernacle is pitched on Namayo avenue north of Bolster's store. Services begin at eight o'clock. All are welcome.

—Mr. W. Richmond Smith, the war correspondent, who sailed for London on the virginian from Montreal last week, will publish a volume while in England. It will deal with General Agassiz's advance and the siege and capture of Fort Arthur. Mr. Smith was present at all of these events as correspondent of the Associated Press and of Reuters. His story will deal exhaustively with the various tragic and picturesque phases which attach to the fighting in and about the fortress at the end of the Tiger's Tail. He was the only Canadian correspondent at the front.

—The teacher's institute began in the high school building this morning. There is a very large attendance of teachers from all parts of the district. Addresses were given this morning on "Elementary Arithmetic" and "The Teaching of Reading" by Messrs. T. E. Perrett and D. F. McGill. This afternoon other subjects of interest to the teachers are being taken up by Messrs. McGill, Perrett and McGill. About sixty teachers are in attendance.

PERSONAL

Karl Martin came up from Leduc yesterday.

T. Berillon left for New York this morning.

BASEBALL TO-NIGHT.

The oft deferred game between Wetaskiwin and the city team will be played on the grounds on Second street this evening. The Wetaskiwin team comes up on the afternoon train. As Edmonton won the former game at Wetaskiwin some good ball should be played tonight.

Mr. Bennett's Program.

Referring to an interview with R. B. Bennett, of Calgary, the Toronto News says:

"He explained why he had not met the Minister at Edmonton. It would be useless to discuss any question there when the Minister had the bill creating Edmonton the capital in one hand, and the Gallians in the other. But he declared that he would take the next train back to the Northwest and would appear on many platforms, including one in the Minister's own city."

A REMARKABLE STORY.

WOMAN TELLS OF HER FOURTEEN YEARS OF SUFFERING.

From Buffalo, N.Y., comes a startling story, illustrating how much suffering a woman can bear and yet live.

Mrs. H. J. Rehorn, 180 Landon St., that city, says:—

"Soon after the birth of my first child, 14 years ago, constipation became troublesome, and the various pills and medicines I used would give temporary relief, but gradually they seemed to lose their influence and the condition became worse. I must have used fully 50 different remedies.

"At times I would have no relief for food, and what I did eat would distress my stomach. Gas would form and rise, headache and restless sleep, bearing-down pain, backache, and gradually I began to recognize the loss of strength, easily tired, and never feeling fully rested.

"My husband brought me home a bottle of a new medicine called Anti-Pill and from the first I began to improve. My appetite was better and what I ate did not make me feel uncomfortable. Anti-Pill is mild and gentle in its action, and yet it cured my terribly obstinate constipation and made me feel so well."

Every Druggist sells this wonderful Anti-Pill that cured Mrs. Rehorn. 50¢
